

A message from Frances Martin, Executive Director: Economic Growth & Neighbourhood Services

I am really excited to be joining Reading at this defining stage in its journey. I can see there is a clear ambition for growth and prosperity alongside a desire to deliver quality services for the communities we serve, and I understand the challenge and complexities of making sure this happens in these challenging financial times. I can't wait to join TEAM Reading and get started!

Our ability to get the basics right will be fundamental to our success. I think it is critical that we do this while at the same as maximising the unique opportunities Reading has to offer as a key destination to live, work and visit in the South East.

Helping to shape the future of Reading while delivering high value services in the here and now, for the benefit of all communities, within the context of a constrained financial position is, without doubt, a big challenge. I am looking for highly motivated and talented people to join the team to build on excellent existing foundations and help me deliver on this exciting agenda. I want to bring a more strategic focus to the way we operate, transforming the way we do business to drive real change for Reading and visible improvement for the people who live, work and visit here. If you would like to join me in this ambition, I would love to hear from you.
